WORKING BENCH 66
BONE SURGERY UNIT

Three main functions: bone, root, clean. The function of bone is mainly used for dental surgery, such as dental extraction, bone grafting, osteogenic distraction, endodontic surgery, alveolar nerve decompression, cyst removal, osteoplasty, bone harvesting techniques and periodontic surgery, etc. The function of root is mainly for mechanical ultrasonic treatment, such as periodontic, endodontic and prevention treatment.

Handpiece, cable, tip holder, working tip and torque wrench can be autoclaved under the high temperature of 135°C and the pressure of 0.22Mpa. The perfect monitor and alarm function of working process ensures the safety of the machine and surgery.

Technical features:
• Output levels adjustable to 10 output levels.
• Working frequency: 24-29Kz.
• Working power of handpiece: max 25W.

Item: 565/00 LED - ULTRASURGERY

Included:
• 1 Ultrasurgery
• 1 autoclavable hand-piece
• 1 basic kit of 12 tips: US1 - 2 US2 - US3 - US4 - US5 - UC1 - UL1 UL2 - UL3 - UL4 - UI1
• 1 autoclave box.
• 1 torque wrench.
• 1 shockproof case.

price: € 5,500,00

Item: 565/00 - ULTRASURGERY

Included:
• 1 Ultrasurgery
• 1 autoclavable hand-piece
• 1 basic kit of 12 tips: US1 - 2 US2 - US3 - US4 US5 - UC1 - UL1 UL2 - UL3 - UL4 - UI1
• 1 autoclave box.
• 1 torque wrench.
• 1 shockproof case.

price: € 4,400,00
**IMPLANT ENGINE**

**Item: 575/00KIT - IMPLANT ENGINE INTRASURGERY 2.0**

- BLDC motor with high performance designed by Carlo De Giorgi’s own high technology and Know-How.
  - BLDC motor (Speed range 0-50,000) and Angle (standard equipment 32:1) provides the optimum torque in surgery.
  - RPM: (20:1) 30rpm - 2,500rpm / (32:1) 20rpm - 1,562rpm
  - Torque: 20:1 (5.0 - 55Ncm) / 32:1 (5.0 - 65Ncm)
  - Gear ratio: 1:1, 20:1, 27:1, 32:1
- Program memory function
  - 10 programmable memories for setting Speed, Torque, Rotating Direction, Irrigation Pump.
- Automatic overload protection function
  - If the load on the Bur is higher than set Torque, the motor stops automatically after 2 seconds.
  - For releasing the overload function, push foot control pedal.
- Actual RPM and Torque is indicated when motor is running, which makes user verify proper working condition during operation.
- Ergonomic foot control pedal
  - The foot control pedal is designed ergonomically to control all the functions and it provides high convenience.
- Membrane touch display
- Self-diagnosis function

**Price:** € 2,600.00 (contra-angle 32:1 included)

---

**LCD display. 10 programs memories for setting the speed, torque, operation direction, irrigation pump.**

**Brushless micromotor has a variable speed between 600 and 50,000 rpm, fully autoclavable (134 °C) works in a simple and practical, with a constant rotation even at low speeds.**

**The foot control pedal is designed ergonomically to control all the functions during the surgery and it helps the user’s convenience.**
IMPLANT ENGINE

item: 583/00KIT - IMPLANT ENGINE TRAUS SIP10

Speed: 20:1 from 30 to 2000 rpm / 32:1 from 20 to 1250 rpm
Torque: 20:1 from 5,00 to 55 Ncm / 32:1 from 5,00 to 65 Ncm
Handpiece: Traus CRB26LX (with optical fiber)
Torque maximum: 80 Ncm
Motor e-type: Traus MBP10SL (sx) ISO 3964 for standard connection.
Pump maximum flow: 75 ml/min.

- 10 programs with memory function
- Protection of overload
- Torque and speed shown on the display when the handpiece is working so as to control the phases of the operation
- Foot Control Ergonomic

price: € 3.050,00

IRRIGATION KITS

item: 575/43
Spare throwaway sterile tubes for IntraSurgery 2.0.
Pack 10 pcs
price: € 100,00

item: 554/43
Spare throwaway sterile tubes for De Giorgi surgical units.
Pack 10 pcs
price: € 100,00

item: 565/43
Spare throwaway sterile tubes for UltraSurgery.
Pack 10 pcs
price: € 100,00
CONTRA-ANGLES FOR IMPLANTOLOGY (55 N)

Contra-angle hand piece fully stainless steel made, recommended for all phases of bone perforation, tapping and screwing.

CONTRA-ANGLES FOR IMPLANTOLOGY (80 N)

Item: CX235C6-19 speed range 20:1

Contra-angle hand piece speed range 20:1, simple, effective, disassemble it without tools and can be cleaned thoroughly to avoiding cross infection.

Price: € 550,00

LED contra-angle, in stainless steel, ideal for all phases of bone drilling, tapping Screw.

ENDO MICRO NITI CONTRA-ANGLES

Contra-angles recommended for endodontic for use of files and channel widening in Ni-Ti. It is equipped with a micro head (9.5 mm) for a better view and for an easier access on the posterior teeth.

D6 HEXA: DENTAL LED TYPE SURGICAL LAMP

**Item: 784/00**
The lamp D6 HEXA allows to obtain an optimum illumination of the surgical field without shadow zones. The lamp D6 produces excellent natural light with an excellent range of colors for both the teeth that for differentiation soft tissue. The 9 levels of brightness (from 10,000 to 60,000 lux) allow to obtain optimal illumination for each surgery condition. Color Temperature 5.500 Kelvin.

**Price**: € 2.390.00

**Maximum comfort for the eyes**
The lamp D6 produces a correct color of illumination so as not to tire the eyes during longer operations.

**Excellent range of colors**
Each LED bulb lamp is optimized to get a vision of colors as close as possible to how they would appear with natural daylight. The lamp uses 6 D6 led bulbs led with high range of colors.

**Minimum heat radiation**
The lamp D6 has no irradiation of heat such as conventional quartz lamps improving patient and operators comfort during interventions. Moreover, the system of fanless cooling allows for a better dissipation of the heat produced, by prolonging the life of the LED.

---

**Item: 786/00 - D6 HEXA SURGICAL LAMP WITH BUILT IN CAMERA**
Also available with built-in camera of high-resolution HD CMOS sensor from 1280x729 2mp Digital Zoom 3X optical zoom connection to PC via USB port 2 with dedicated software.

**Price**: € 4.500.00

**Upon request available versions on wheels and for dental unit.**
**DP@110: DISPOSABLE PROPHYLAXIS CONTRA-ANGLES**

The new disposable prophy handpiece is designed for the comfort of the patient and the hygienist. Polishing procedures are now more simple and clean to improve the comfort of the patient and the clinician.

**Specifications:**
- Compact and ergonomic design.
- Provides easy access and good visibility.
- Can be used with any type pulp prophylaxis.
- Excellent tactile sensitivity.
- Designed for use at low speed.
- Consistent performance without noise.

Available in two types:

- **art. 316/00M**
  - (box of 144 pieces soft type)
  - price € 48,00

- **art. 316/00D**
  - (box of 144 pieces hard type)
  - price € 48,00

* (*handpiece not included in the price, see characteristics on page 39)

**VIBRING: ENDODONTIC IRRIGATION SYSTEM**

Vibring is compatible with most 10cc syringe irrigation. Do not requires special syringes or attacks details. Vibring is studied to improve the quality of irrigation canal. the system produces sonic vibrations that are transmitted in the channel during irrigation for rapid removal of smear layer and necrotic debris. The system allows to obtain more results predictable in cleansing the root canal.

**price € 420,00**

**C-WARMER: HEATER FOR ANESTHESIA VIALS**

Thermostatic control for a best comfort of the patient. Pre-heat the 1.8 cc vials of anesthetic to exact temperature of the patient for a most comfortable. Injection can heat up to seven anesthetic vials with a digital control in steps of 1° C. C-warmer can also be used to heat also ampoules with different types of material with a range of temperature from 20° C to 60° C. It contains up to seven cartridges of different sizes.

**price € 250,00**
CONTRA-ANGLES, HAND-PIECES, INTERNAL SPRAY MOTORS

**Item: CX235C7-2**
- Contra-angle 1:5; without light and with internal spray; max 200,000 rpm.
- Price: € 720.00

**Item: CX235C7-1**
- Contra-angle 1:5; with light and internal spray, max 200,000 rpm. 25,000 Lux.
- Price: € 820.00

**Item: CX235-1M**
- Contra-angle 1:5 with self-generated light; max 200,000 rpm; 25,000 Lux; single spray.
- Price: € 690.00

**Item: CX235-1C**
- Contra-angle 1:1 with optical fiber; max 40,000 rpm; 25,000 Lux; single spray.
- Price: € 460.00

**Item: CX235-1E**
- Contra-angle 1:1 with self-generated light; max 40,000 rpm; 25,000 Lux; single spray.
- Price: € 520.00

**Item: CX235-1B**
- Contra-angle 1:1; max 40,000 rpm; single spray.
- Price: € 350.00

**Item: CX235-2C**
- Hand-piece 1:1 with optical fiber; max 40,000 rpm; 25,000 Lux; single spray.
- Price: € 450.00

**Item: CX235-2B**
- Hand-piece 1:1 max 40,000 rpm; single spray.
- Price: € 330.00

**Item: CX235-3D**
- Air motor with internal generator; 32,000 Lux.
- Price: € 440.00

**Item: CX235-3C**
- Air motor with fiber; 32,000 Lux.
- Price: € 380.00
## OPTICAL FIBER HAND-PIECES CX TYPE

Optical fiber hand-piece; 300,000 rpm; 25,000 Lux. Available standard or torque.

**BLUE AND RED HANDPIECE**

The handpiece BLUE and Red are synonymous with safety and reliability. Light and well balanced provide for good handling ideal for the preparation of cavities, crowns, fillings and removal of finishing work. The system of anti-retraction prevents the infiltration of saliva within the turbine, protecting the ball bearings from contamination, thereby ensuring a longer life. The special surface treatment provides a secure grip and excellent sterilization for perfect hygiene. The locking system “push-button” ensures a rapid exchange cutter.

| Item: 777/24 - SURGICAL HANDPIECE BLUE 45-SU-M4 | price: € 174,00 |
| Item: 777/55 - HANDPIECE RED TUQP-M4 | price: € 290,00 |
| Item: 777/40 - HANDPIECE RED - TUQL LUX SUPER TORQUE | price: € 340,00 |

**HANDPIECE EXCELLENT COLORFUL**

Excellent Colorful handpiece are a real novelty in the field of dentistry. Made in plastic body autoclavable and steel head, are equipped with system of replacement cutter key, fast and easy. Equipped with standard head and metal rotor, guarantee excellent performance even at high speed. Ergonomically designed, have a non-slip grip, comfortable, quiet and total absence of vibrations, are suitable for the preparation of cavities and crowns, precision work and finishing. Pack 6 pcs.

**DISPOSABLE HANDPIECE**

The disposable handpiece is a revolution in dentistry! Favors a further guarantee of hygiene and asepsis. Indicated for patients at risk or for patients sensitive to risk contamination. It is guaranteed for 4 hours continuous use. Head’s small, water spray jet, weight 10 grams, speed 300,000 to 400,000 MPa, plastic body not autoclavable. Individually wrapped, sterile. Kit consists of 25 handpieces sterile disposable + 1 quick connector 4-way Midwest. Pack 25 pcs + quick connector.

| Item: 777/22KIT - DISPOSABLE HANDPIECE | price: € 215,00 |
| Item: 777/23 - Quick connector 4-way disposable handpiece. | price: € 18,00 |
LED HANDPIECE WITH GENERATOR RED-TUP-M4

The hand-pieces Excellent are new and practice. Equipped with autoclavable plastic body, ergonomic, secure grip guarantees a perfect handling and reliability. Ideal for the preparation of cavities, crowns, fillings and removal of finishing work.

price: € 210,00

HANDPIECE EXCELLENT

price: € 80,00
DIODE LASER SYSTEM

**Technical Features:**
- GaAs Diodes Laser.
- Wavelength: 808/980 nm.
- Laser class 4.
- Power adjustable pulse: 0.5 to 4 W, 0.5 to 7 W (808 nm), 0.5 to 10 W (980 nm).
- Divergence Angle: ≤25°.
- Pointer: +/- 650 nm 10 nm, 3mW.
- Pulse duration: 50 mS to 900 ms.
- Voltage: 220 Volts - 50/60 Hz.
- Dimensions: 200 x 120 x 60 mm.
- Display: 7 "touch-screen.
- Net Weight: 1.50 Kg.

**Includes:**
- Battery Pack.
- Foot pedal Wireless.
- Protective eye glasses.
- Disposable pipette tips (400 mic.).
- Power supply and power cord.
- Fiber 3m with door handle probes (400 mic.).
- Sticker "radiation hazard LASER".
- Shockproof Case.

**Optional:**
- Whitening hand-piece.
- Fiber Optic hand-piece (diameters 200-300 - 400-600 -800 -1000 um).

**price:** € 6,900.00

---

**Item: 311/00 DD-10**

**Technical Features:**
- GaAs Diodes Laser.
- Wavelength: 808/980 nm.
- Laser class 4.
- Power adjustable pulse from 0.10 to 4.0 Watts (up to 2.5 Watts usable by Hygienists).
- Divergence Angle: ≤25°.
- Pointer: +/- 635 nm 10 nm, 3mW.
- Pulse duration: 50 mS to 900 ms.
- Voltage: 220 Volts - 50/60 Hz.
- Cooling system: air.
- Dimensions: 156 x 92 x 34 mm.
- Net Weight: 0.80 Kg.

**Includes:**
- Dental handpiece with fiber optic 400 um.
- 10 tips for disposable dental handpiece.
- User protective glasses.
- Foot switch wireless.
- Shockproof Case.

**Optional:**
- Whitening hand-piece.
- Fiber Optic hand-piece different diameters available.

**price:** € 4,900.00

---

**SYRINGE AIR / WATER**

**Item: 777/50 SYRINGE AIR/WATER**

High quality, easy to use. Aluminium body and steel caps steel equipped with two nozzles, air / water spray indispensable in the daily work in practice.

**price:** € 18,00
The bicarbonate Cleaning Powder is delivered in plastic containers. Each bottle contains 130 g of powder and is equipped with a stopper for the measurement of the assay. Available in 3 different flavors: Lemon, Mint and Strawberry.

- Item: DB-828-1 (Lemon) - pack of 6 pieces
- Item: DB-828-2 (Mint) - pack of 6 pieces
- Item: DB-828-3 (Strawberry) - pack of 6 pieces

Price: € 60,00

Dx condenser: manual plugger for endodontic obturation, nickel titanium and stainless steel tips maybe used in all the most common techniques of condensation of hot or cold gutta-percha.

Price: € 180,00
Carlo De Giorgi presents the new system DB-988, a new and exclusive device ideal and indispensable for every dentist’s surgery. DB-988 has a special patented accelerator built on the mixing bowl cap, that assures an excellent result. The alginate is mixed quickly and constantly, this procedure consents to avoid air bubbles and brings the product uniform, harmonious and with a perfect viscosity. You will have impressions with a surface smooth like the glass, the reproductions of plaster moulds and reconstructions will be perfect.

DB-988 assures many advantages:
• Constant repetitiveness of the result, eliminating any human component.
• Simple and clean process.
• You will increase the quality of the process.
• You will save time.
• You will reduce the waste of alginate.

DB-988 is:
• Simple.
• Silent.
• Programmable for every alginate.
• Rich of accessories.

price: € 940.00

AUTOMATIC SYSTEM OF CLEANING AND LUBRIFICATION

Item: DB-800-2A

Proper maintenance is the key essential to ensure high performance and long life of instruments. DB-800-2A is a system of lubrication and cleaning for handpieces and turbines that allows you to automatically clean up to 3 instruments at a time, in the same cycle by simply pressing a button. Of great versatility, it offers the ability to connect multiple models of handpieces: NSK, KaVo, W & H, Bien-Air and Sirona.

Specifications:
• easy to use.
• filtered air to rotation of the handpiece.
• versatile and economical.
• filtration system moisture.

price: € 990.00
**ARMS & SUPPORTS**

**MONITOR TFT LCD ARM (CLAMP NOT INCLUDED)**

- **Item 87010000** Monitor arm (L.385 mm), SVGA, video and power supply cable.

  **Price:** € 140.00
- **Item 87010036** Clamp for monitor arm ø 60 mm.  
  **Price:** € 140.00
- **Item 87010043** Rubber clamp shim.  
  **Price:** € 13.00

**ECONOMIC MONITOR ARM**

- **Item 382/00** Clamp for monitor arm ø 45 mm.  
  **Price:** € 102.00

**MONITOR NEOVO LCD 17”**

- **Item 870500016**
  Monitor Neovo X-17 no medical certified.  
  **Price:** upon request
- **Item 870500017**
  Monitor Neovo DR-17 medical certified.  
  **Price:** upon request

**DENTISTRY MICROMOTORS**

**Item: 551/00 - 4000 COLIBRÌ INTRAMATIC**

Dentistry micromotor with intramatic connection.  
**Price:** € 850.00

**Item: 553/00 - 4000 COLIBRÌ INTRAMATIC R**  
**Price:** € 850.00

**Technical Features:**

- **Power:** 100 Watt
- **Speed:** 1,000-30,000 rpm
- **Feeding:** 230 V - Hz 50/60
- **Weight:** 3.5 Kg
CORDLESS OBTURATION HEAT PLUGGER

item: 578/00 - ENDO@PEX

Technical features:
• The Endo@pex is the meaning of Endo + Apex.
• Wireless obturation device, complete set excellent grip.
• Perfect filling of GP.
• Super Lightest hand piece obturation heat plugger.
• Stylish hand piece color (White, Cyan, Light orange, Light blue).
• Clinically proven to reduce stress of user’s hand.
• Perfection in Balance (30% Grip & user’s 70% battery) evenly distribute its weight from Front to Back maximum comfortability.

price: € 1,995,00

item: 579/00 - FRIENDO

Technical features:
• Wireless obturation device.
• Super Lightest handpiece obturation heat plugger.
• Stylish hand piece color (White, Cyan, Light orange, Light blue).
• Clinically proven to reduce stress of user’s hand.
• Perfection in Balance (30% Grip & 70% battery) evenly distribute its weight from Front to Back maximum comfortability.
• Swivel feature 360 (patent) to freely rotate the plugger tip anytime during.
• Operation for maximum efficiency.
• To reduces muscle tension generated by arm twisting while adding more precision to hard-to-reach areas.
• Easy operation, shot, size select, mode, turn ON/OFF.

price: € 1,100,00

C-SMART MINI - ENDODONTIC TREATMENT

item: 763/00 - C-SMART mini

Technical features:
• Wireless handpieces, sample and lightness.
• LCD screen display, keyboard operating, easy to use.
• Original switzerland surgical brushless motor.
• Large rechargeable Li-ion battery.
• Detachable 1:1 mini contra-angle, multi-angle, can be autoclaved sterilization.
• Speed and torque can be adjusted.
• Multiple reverse mode, especially the 90° reciprocating rotate mode.
• Recharge very fast by connecting the adaptor.
• Automatically shut down after 3 min. without any operation and memory the last executed program.

price: € 890,00
MONOPOLAR SURGERY

Item: 644/00 - SURGERY PLUS

Surgery Plus is a radiofrequency electrosurgical unit suitable for dental monopolar surgery. Surgery Plus through the functions selection makes pure cut CUT, cut coagulation CUT-1 and CUT-2 and pure coagulation COAG possible. Surgery Plus offers outstanding professional surgical results due to its ergonomic and superior safety features.

price: € 780.00

LED CURING LIGHTS

Item: 675/00 - CURING LIGHT LED.D

- Wireless. The battery can be replaced.
- Three working modes: Full, Ramping, Pulse.
- Automatic memory.
- A full charge can be used for over 300 times. (10s/time).
- Constant light intensity, the solidification effect is stable even the battery power decreases.
- With wire or wireless. Even the battery runs out, it can work by connecting power supply with wire.

price: € 249.00

ULTRASONIC SCALER

**Item: 826/00 - ULTRASONIC SCALER UDS-K**

Detachable handpiece, autoclavable. Automatic frequency tracking.

**Price:** € 450.00

**Technical Features:**
- **Power input:** 110V ~ 50 Hz/60 Hz
- **Main unit input:** 24 V ~ 1.3 A
- **Output power:** 3 W ~ 20 W
- **Frequency:** 28 kHz ± 3 kHz
- **Water pressure:** 0.1 bar ~ 5 bar
- **Main unit weight:** 0.75 Kg
- **Adapter weight:** 1.2 Kg
- **Dimensions:** 170x111x65 mm

**Item: 842/00 - ULTRASONIC SCALER UDS-K LED**

Detachable handpiece, with light, better visibility, autoclavable. Automatic frequency tracking.

**Price:** € 515.00

**Technical Features:**
- **Power input:** 110V ~ 50 Hz/60 Hz
- **Main unit input:** 24 V ~ 1.3 A
- **Output power:** 3 W ~ 20 W
- **Frequency:** 28 kHz ± 3 kHz
- **Water pressure:** 0.1 bar ~ 5 bar
- **Main unit weight:** 0.75 Kg
- **Adapter weight:** 1.2 Kg
- **Dimensions:** 170x111x65 mm

**Item: 824/00 - ULTRASONIC SCALER UDS-A**

Detachable handpiece, autoclavable. Automatic frequency tracking.
Scaling, Perio, Endo.

**Price:** € 515.00

**Technical Features:**
- **Power input:** 110V ~ 50 Hz/60 Hz
- **Main unit input:** 24 V ~ 1.3 A
- **Output power:** 3 W ~ 20 W
- **Frequency:** 28 kHz ± 3 kHz
- **Water pressure:** 0.1 bar ~ 5 bar
- **Main unit weight:** 0.64 Kg
- **Adapter weight:** 1.2 Kg
- **Dimensions:** 196x134x80 mm
ULTRASONIC SCALER

Item: 828/00 - ULTRASONIC SCALER UDS-L plus

Price: € 650,00

Technical Features:
- Power input: 110 V – 50 Hz/60 Hz
- Output power: 3 W – 20 W
- Frequency: 28 kHz ± 3 kHz
- Water pressure: 0.1 bar – 5 bar
- Dimensions: 190 x 125 x 60 mm

Item: 840/00 - ULTRASONIC SCALER UDS-E

Price: € 850,00

Technical Features:
- Power input: 110 V – 50 Hz/60 Hz
- Output power: 3 W – 20 W
- Frequency: 28 kHz ± 3 kHz
- Main unit weight: 1.35 Kg
- Adapter weight: 1.2 Kg
- Dimensions: 234 x 193 x 109 mm

Item: 846/00 - ULTRASONIC SCALER UDS-E LED

Detachable handpiece with light, better visibility, autoclavable. Automatic frequency tracking. Scaling, Perio, Endo. Clinical solution are applicable for automatic water supply model, improving the performance of perio and endo function dramatically. Less heat from tip during operation. Improve comfort degree of patients.

Price: € 980,00

Technical Features:
- Power input: 110 V – 50 Hz/60 Hz
- Output power: 3 W – 20 W
- Frequency: 28 kHz ± 3 kHz
- Main unit weight: 1.35 Kg
- Adapter weight: 1.2 Kg
- Dimensions: 234 x 193 x 109 mm
ULTRASONIC SCALERS

item: 829/00 - ULTRASONIC SCALER D5

price: € 610,00

Technical Features:
- Power input: 110V ~ 50 Hz/60 Hz  220 - 240 V ~ 50 Hz /60Hz
- Main unit input: 24 V~ 1.3 A
- Output power: 3 W ~ 20 W
- Frequency: 28kHz ± 3kHz
- Water pressure: 0,1 bar ~ 5 bar
- Main unit weight: 0.65 Kg
- Adapter weight: 1.2 Kg
- Dimensions: 188x159x81 mm

item: 841/00 - ULTRASONIC SCALER D7

Detachable handpiece with light, better visibility, autoclavable. Automatic frequency tracking. Scaling, Perio, Endo. Clinical solution are applicable for automatic water supply model, improving the performance of perio and endo function dramatically. Less heat from tip during operation. Improve comfort degree of patients.
price: € 850,00

Technical Features:
- Power input: 110V ~ 50 Hz/60 Hz  220 - 240 V ~ 50 Hz /60Hz
- Main unit input: 24 V~ 1.3 A
- Output power: 3 W ~ 20 W
- Frequency: 28kHz ± 3kHz
- Main unit weight: 1,35 Kg
- Adapter weight: 1.2 Kg
- Dimensions: 237x206x93 mm

item: 848/00 - ULTRASONIC SCALER D7 LED

Detachable handpiece with light, better visibility, autoclavable. Automatic frequency tracking. Scaling, Perio, Endo. Clinical solution are applicable for automatic water supply model, improving the performance of perio and endo function dramatically. Less heat from tip during operation. Improve comfort degree of patients.
price: € 980,00

Technical Features:
- Power input: 110V ~ 50 Hz/60 Hz  220 - 240 V ~ 50 Hz /60Hz
- Main unit input: 24 V~ 1.3 A
- Output power: 3 W ~ 20 W
- Frequency: 28kHz ± 3kHz
- Main unit weight: 1,35 Kg
- Adapter weight: 1.2 Kg
- Dimensions: 237x206x93 mm
BUILT-IN SCALER COMPATIBLE EMS® SPECIAL DESIGN FOR DENTAL UNIT

**item: 831/00 - BUILT-IN SCALER UDS-N2**

Detachable handpiece autoclavable; PC control; automatic frequency tracking. Five tips attached.

**price:** €410,00

**Technical Features:**
- Main unit input: 24 V~ 50Hz/60Hz 1.3 A
- Output power: 3 W ~ 20 W
- Frequency: 28kHz ± 3kHz
- Water pressure: 0.1 bar - 5 bar
- Main unit weight: 0.2 Kg
- Dimensions: 74x56x38 mm

**item: 832/00 - BUILT-IN SCALER UDS-N3**

Detachable handpiece autoclavable; scaling, endo function; PC control; automatic frequency tracking. Six tips attached.

**price:** €450,00

**Technical Features:**
- Main unit input: 24 V~ 50Hz/60Hz 1.3 A
- Output power: 3 W ~ 20 W
- Frequency: 28kHz ± 3kHz
- Water pressure: 0.1 bar - 5 bar
- Main unit weight: 0.2 Kg
- Dimensions: 74x56x38 mm

**item: 831/00LED - BUILT-IN SCALER UDS-N2**

- Water pressure: 0.1 bar - 5 bar
- Main unit weight: 0.2 Kg
- Dimensions: 74x56x38 mm
DETACHABLE HANDPIECE EMS® COMPATIBLE

Item: 826/20 - DETACHABLE HANDPIECE
Detachable handpiece autoclavable (at 135°C), with titanium internal, EMS® compatible.
price: € 200,00

Item: 842/20 - DETACHABLE HANDPIECE LED
Detachable handpiece autoclavable (at 135°C), with titanium internal, EMS® compatible with LED.
price: € 260,00

Item: 826/22 - CABLE EMS® COMPATIBLE
price: € 40,00

DETACHABLE HANDPIECE SATELEC® COMPATIBLE

Item: 829/20 - DETACHABLE HANDPIECE
Detachable handpiece autoclavable (at 135°C), with titanium internal, Satelec® compatible.
price: € 200,00

Item: 848/20 - DETACHABLE HANDPIECE LED
Detachable handpiece autoclavable (at 135°C), with titanium internal, Satelec® compatible with LED.
price: € 260,00

Item: 829/22 - CABLE SATELEC® COMPATIBLE
price: € 40,00

ACCESSORIES

Item: 826/26 - 1# TIP HOLDER
price: € 10,00

Item: 826/27 - 2# TIP HOLDER WITH COVER
price: € 15,00

Item: 826/24 - TW-1L Torque wrench
price: € 15,00

Item: 826/23 - TW-2L Torque wrench (hold the tips)
price: € 20,00

Item: 826/30 - AT-1 Auto water supply system
price: € 75,00
COMPATIBLE TIPS WITH DE GIORGI/WOODPECKER®/EMS®/SATELEC®/NSK

**SCALING**

- **item: G1 • GD1**  
  price: € 40.00  
  To remove calculus on anterior teeth, the neck of molars, and supragingival.

- **item: G2 • GD2**  
  price: € 40.00  
  To remove supragingival heavy calculus.

- **item: G3 • GD3**  
  price: € 40.00  
  To remove the calculus of supragingival, subgingival and interdental calculus.

- **item: G4 • GD4**  
  price: € 40.00  
  To remove all supragingival calculus.

- **item: G5 • GD5**  
  price: € 40.00  
  To remove supragingival and neck calculus.

- **item: G6 • GD6**  
  price: € 40.00  
  To remove the supragingival heavy calculus.

**PERIO**

- **item: P1 • PD1**  
  price: € 40.00  
  To remove the subgingival calculus. Used for subgingival tartar elimination.

- **item: P3 • PD3**  
  price: € 40.00  
  To remove the subgingival calculus.
**PERIO**

**Item: P3D • PD3D**  
Price: € 40.00  
To remove the subgingival and perio deep calculus.

**Item: P4 • PD4**  
Price: € 40.00  
To remove the subgingival and interdental calculus.

**ENDO**

**Item: E1 • ED1**  
Price: € 45.00  
120 °C angle holder for Shank dia: 0.8mm U files, usually use for anterior root canal cleaning, sterilizing and taking out the stem in root canal.

**Item: E2 • ED2**  
Price: € 45.00  
95 °C angle holder for Shank dia: 0.8mm U files, usually use for anterior root canal cleaning, sterilizing and taking out the stem in root canal.

**Item: E3 • ED3**  
Price: € 45.00  
After root canal cleaning, using the mechanism and heat energy of ultrasonic vibration to intenerate the filling lateral condensation, to make sure the top of the scaler tip touch the lateral condensation.

**CAVITY PREPARATION TIP**

**Item: SB1 • SB1D • SB2 • SBD2**  
Price: € 57.00  
Ball diamond tip. Preparation of the occlusal surface and the neck of the carious tooth (SB1-SBD1). Half ball diamond tip. Preparation of the interdental surface without damaging the adjacent.

**Item: SB3 • SBD3**  
Price: € 57.00  
Halfball diamond tip. Preparation of the interdental surface without damaging the adjacent tooth.

**Item: SBL • SBDL • SBR • SBDR**  
Price: € 57.00  
Halfball diamond tip. Set 45o to the left (SBL-SBDL); to the right (SBR-SBDR). Allows get rid of the carious teeth without damaging the adjacent tooth.
ENDO MOTOR

Item: 849/00 - ENDO MOTOR iPexEndo with apex locator

Endodontic micromotor, ideal for NiTi instruments. The compact base unit is equipped with a control panel, easy to use, where they are easily identifiable commands related to the control of speed, torque, the type of set program, the mode autoreverse: all information is shown on the LCD display, allowing you to constantly monitor the treatment. It has 9 programs and 3 different customizable options that allow you to autoreverse safeguard the NiTi instrument. Featuring a lightweight handpiece (only 92 g), with head thumbnails. Equipped with audible alarm that alerts exceeded the maximum and minimum speed.

Features and Benefits:
- Speed: 100-625 rpm
- 9 different programs set by the operator
- Checking the limit Torque 0.6 - 5.2 Ncm
- Auto-Reverse
- On / Off Switch
- Control panel TVs and intuitive
- Ergonomic handpiece and light
- LCD screen
- Control unit compact and portable
- Over 2 hours of battery life
- High capacity Li-ion chargeable battery

Price: € 935.00

APEX LOCATOR

Item: 548/00 - WOODPEX III

Equipped with clear bright LCD, clear image and different color indicate the trajectory of the file clearly. Based on advanced multiple frequency network impedance measurement technology and automatic calibrating ensures the measurements are accurate. Autoclavable file clip, file hook, file probe. Avoiding cross infection effectively. The battery is rechargeable, don’t need replace the battery repeatedly. Folding, easy to adjust the visual angle.

Price: € 680.00

AMALGAMATOR

Item: 721/00 - DENTAL MIX 2000

Mechanical-Electronic amalgamator, programmable with pre-selected working times for each type of amalgams: for capsules and powders.

Price: € 380.00

The color of our teeth is determined by the enamel and the dentine, which over the years, may be subject to aesthetic discoloration. Enamel and dentine are permeable, consequently subject to absorbing external substances. Teeth are mainly stained due to external factors such as smoke, coffee or tea, fluoride or natural physiological tooth aging. The professional whitening system is an innovative solution able to give to patients very satisfactory results in very short times. This new treatment is produced with hydrogen peroxide at 38% which is activating very fastly thanks to the combined action with a LED Lamp. Hydrogen peroxide in all whitening formulas is the active ingredient: the whitening works by oxidizing reduction. The splitting up into very small molecules allows the whitening agent to permeate and dilutes in the interprismatic enamel spaces. The result are brighter, lighter, cleaner teeth due to the light reflectory effect. Clinical results on a large number of patients demonstrated up to eight shades lighter teeth (measurable with Vita Scale). It is important to underline, the concentration of potassium nitrate and fluoride additives which reduce the increase in dental sensitivity. The whitening treatment is not permanent, as the teeth enamel absorbs colours due to external factors and it can be repeated periodically.

WHITENING LAMP

Item: 850/00 - POLILUX ACCELERATOR PLUS

Carlo De Giorgi has realized POLILUX ACCELERATOR, a very innovative device, which is the optimal expression of the whitening systems actually in commerce. Polilux Accelerator is a led type lamp specific for Office Bleaching Professional treatments: its wave length between 480 and 505 nm and its energy source (30.000 mW/cm²) have been studied to obtain the best possible result in a sole treatment of 20 minutes. The lamp has a special screen which allows the absorption of the ultraviolet and infrared light avoiding the overheating of the soft tissues. It is equipped of: a fixed standard with supple arm, which make the positioning operations easier; the easy use and the automatized programme with the visualization of the working times, make Polilux Accelerator a very functional device. The Polilux Accelerator led light facilitates and quickens the activation and penetration of the active ingredient (oxygen) in the whitening gel to achieve unbelievable results.

It is supplied complete with:

- 5 White Extrashine Accelerator Kits, made up of a whitening gel 38% hydrogen peroxide;
- 2 pairs of medical glasses;
- 10 check expanders.

price: € 1.850,00
The lamp, easy and practical, is made from: irradiative body, where leds are fitted; these leds are constantly checked and cooled down so that heat transmission on the treated area will be avoided. The start will cause a timing step of 20 minutes with automatic switch off. Mechanical clamp for the fixing of the lamp, Easy flexible arm that allows the correct positioning of the irradiative body in relation to the patient mouth.

Power pack with electronic control, rearranged to be fixed on the wall or laid down on the ground. Electric supply cable. All this is included in a bag, useful for the transport between the clinics.

price: € 920,00

**It is supplied complete with:**
- 3 Kits White Accelerator Extra Shine;
- 2 pairs of medical glasses;
- 6 check expanders.
WHITENING PROFESSIONAL SYSTEM

Item: 871/00 - EXTRA SHINE PROFESSIONAL BICOMPONENT

The system of professional whitening chairside faster and requires a single session of 1 hour. The gel is applied directly to the teeth and protect the gums with a dam curing. Extra shine allows the bleaching of even a single tooth. The treatment does not require any special equipment, is easy to apply and is suitable for use with Polilux Accelerator lamps and lasers.

Concentration: 38% Hydrogen Peroxide (before mixing)
Application time per session: 1 x 20 minutes
Session: 1
price: € 99,00

ACCESSORIES

Item: 860/20 - BLEACH GUM ACCELERATOR

Bleach Gum light curing liquid gingival barrier, to insulate and protect soft tissues during professional bleaching system.

Kit: 3 syringe of 3,5 gr
price: € 39,90

Item: 860/21 - CHECK ESPANDER MEDIUM

Item: 860/22 - CHECK ESPANDER LARGE

Check espander with lingual retroactor, in coloured plastic, cold sterilizable only.

Kit: 10 check espander size M  price: € 29,90
Kit: 10 check espander size L  price: € 29,90

Item: 519000031 - MEDICAL GLASSES

Medical glasses. Protect from the exposure to the lamp light. They are equipped with adjustable spectacles for a better wearing, can be wearad also on corrective lenses.
price: € 11,90

NEEDLE RECAPPER

Item: 2470 - STAINLESS STEEL NEEDLE RECAPPER

- Suitable for use with all brands of syringes and needles
- The unit provides excellent stability thanks to its weight and non-slip base.
- Can be used as a needle recapper between multiple anesthesia procedures, at the end of the anesthesia or as a syringe support.
- The needle cap becomes unlocked in the recapper as the locking button is pressed. The needle cap is tightly held in the support as pressure is released.
price: € 80,00
WORKING BENCH

GENIUS 2000, is a movable unit extremely useful for every dentist. It allows to make directly nearby treatment chair the equilibration of bite-plane occlusions, the realization of resin-gigs, instant provisories on fix dental prosthesis and to retouch movable dental prosthesis to the final polishing. The unit excellent lighting condition by the cold light of the neon lamp and absolute cleanliness by the variable speed suction and by the protection shield. Moreover it’s great versatility unit because it can be easily moved from one operating-room to another-one as a real movable mini-lab that perfectly fits every working step.

**Item: 764/00 S CLASSIC 17 (17 litres)**  € 3.930,00  
**Item: 766/00 S CLASSIC 22 (22 litres)**  € 4.710,00

### AUTOCLAVES “N” TYPES

**Item: 757/00 - WS 05 PLUS**

Fixed cycle autoclave fully automatic, made with the best materials available on the market. Comply with the regulations regarding sterilization. Suitable for the sterilization of unwrapped solid, solid and compact, is easy to use. Equipped with control panel and indicator lights, can easily follow the sterilization process in all its phases. Included: drum instruments and pliers.

**price:** € 1.040,00

**Technical Features:**

- External dimensions: 34x33,5 cm
- Chamber dimensions: 21x23,5 cm
- Sterilizing liquid: distilled water
- Rated Power: 230 V - 50/60 HZ
- Exercise temperature: 126 °C
- Sterilization time: 11 min.
- Exercise pressure: 1,40 bar

**Item: 756/00 - WS 01**

Very simple to use, sure for the operator it a machine to sterilize hand pieces, turbines, rotating instruments and each instrument sterilizable at 125 °C. WS 01 can do all this very easily, simply by closing the cover and selecting the cycle lasting 15 minutes.

WS 01 is formed by an external part of painted steel, by a 18/10 stainless steel vapor pressure boiler without any welding and by a lid in stainless steel too with a removable basket.

**price:** € 1.100,00

**Technical Features:**

- External dimensions: 30x29x4 cm
- Chamber dimensions: 22x23,5 cm
- Basket: 21x23,5 cm
- Sterilizing liquid: distilled water
- Rated Power: 230 V - 50/60 HZ
- Exercise temperature: 125 °C
- Sterilization time: 15 min.
- Exercise pressure: 1.6/1.7 bar
- Weight: 12 Kg
HOT AIR STERILIZERS

Hot air sterilizer with automatic control of temperature (0-200°C) stainless steel structure, outwardly powder painted. Dry Steril model has four trays of anodized aluminium with big holes for warm air circulation. A safety bimetallic thermostat controls temperature not exceed 230 °C. A pilot red light indicates an eventual anomaly of thermoregulator and working safety thermostat.

Hot air Sterilizers of high quality. They are born to satisfy the exigency of a very compact device, maintaining the same efficacy and safety of bigger dimensions’ models. Internal chamber, tray, pliers and cover made in shiny stainless steel. Double thermostat to control the temperature. An insulation of fibre glass with high density limits the loss of heat, reducing the resistance’s work.
GLASSBEADS STERILIZERS

Automatic thermostat, safety thermic fuse, double thermic fibre glass insulation, careful electric insulation, feeding cable with safety plug, insulating material externally protected by stainless steel plate, armoured resistance, air circulation on 5 sides, switch and warning lights with safety marks. One removable nickel copper cup of easy replacement with holding edge to avoid leakages of quartz balls. Three bright gauges (network, wait, work) have to control the conditions of the equipment.

Item: 712/00 - MINISTERIL  price: € 250,00

GERMICIDAL LAMP

Potent germicidal action is amplified by reflecting surfaces. A microswitch placed near the protective screen, prevents accidental direct exposures. The lamps use emit over 85% of their energy with wave-length 253.7 nm, in ultraviolet band, with a radiation that kills bacteria and other microorganisms.

price: € 280,00

Item: 754/20 - Germicidal spare lamp 15 Watt  price: € 63,00

Technical Features:
Absorbed power:  15 Watt
Feeding:  230 V - Hz 50/60
Dimensions:  48x22,5x21 cm
Weight:  6 Kg

NEGATIVOSCOPY

View negatoscopes are assembled in accordance with safety rules and clinical directions that required a very white light (6500° Kelvin) for a precise reading of details. Vega negatoscopes are equipped with one filtered plexiglass screen exempt from fault and they are painted with anti-scratching powder.

THERMO SEALER

**item: 847/00 - MILLSEAL**

The thermosealing Millseal is equipped with an electronic control of the parameters of sealing (time and temperature) and guarantee a sealing band of 12 mm. The sound and light signals provide information on the correct operating conditions.

- **PERFORMANCE**: high and constant. Thanks to the automatic adjustment of the temperature, we obtain a powerful heating control in the weld zone, ensuring the high quality of performance over time. Furthermore, the heat sealer Millseal is equipped with a protection system from overheating and the stand-by mode for energy savings.
- **CONTROL CARD**: simple and reliable. The system of maintenance in position helps prevent paper rewinding the reel after the cutting and sealing, thus allowing a linear procedure and without interruptions.
- **PRECISION**: the centimeter scale allows to define precisely the correct length of the envelopes according to the type of material to be sterilized.

**price**: € 660,00

**Technical Features**:
- Sealing bandwidth: 12 mm
- Maximum sealing width: 310 mm
- Dimensions: 47,4x37,4x20 cm
- Weight: 5 Kg

**item: 717/00 - NEWSEAL**

The thermosealer systems enables surgical instruments to be wrapped before being put in the autoclave so as to maintain sterility after sterilization has been completed. The new sealing system uses a new heating technology which produces a 12 mm seal with no risk of accidentally burning the paper.

**price**: € 685,00

**ROLLS FOR STERILIZATION**:

WATER DISTILLER

**item: 773/00 - “STILLO” PURE WATER DISTILLER**

Easy to use and runs very quietly. The conductivity value of the water obtained is ideal for use in the steriliser. Produces up to 4 litres of demineralised water in 6 hours, entirely adequate for continuous use of Carlo De Giorgi sterilisers. Switches off automatically at the end of the process.

**price**: € 300,00
DENTAL MOBILE CART

Item: DB-838-5

Technical features:
• Automatic control for three handpieces, handpiece tubing, 4-hole Midwest (max 5 tubing).
• Asepsis 3-way air/water syringe.
• Pneumatic master control block w/diaphragm.
• Individual handpiece pressure adjustment.
• Individual water coolant adjustment.
• Air coolant adjustment.
• Handpiece exhaust filter/oil collector.
• Self contained clean water system, single bottle 1 liter.
• Wet/dry foot control.
• Adjustable height frame.
• Twin wheel hard floor casters.

Price: € 1,690.00

PORTABLE DENTAL UNIT

Item: DB-406

Minimum space, maximum efficiency, portable dental units provide work processes without hindrance. Their small size and quiet compressor built make them perfectly autonomous, allowing you to move and carry them everywhere. The controls are simple and intuitive, can be operated with hands and feet. They are equipped with all the features necessary for the conduct of operations. The quality of the materials used ensures a toughness and a design to the highest levels.

Weight: 39 kg. Dimensions: W55 x D42 x H76 cm.

Standard Accessories:
• Compressor to dry.
• 3-function syringe.
• M4 cord for high speed (turbine).
• M4 cord for low speed (M.M. air).
• Built-in scaler.
• Built LED light curing.
• Surgical aspiration (adjustable).
• Spray bottle feeding handpieces and syringe.
• Bottle containing exhaust (aspirated material).
• Pneumatic pedal.

Price: € 2,200.00
TROLLEYS AND CARTS

**Item: 720/00 - SERVUS**

Functional Trolley with 3 shelves made of galvanized steel enamelled with epossidic powders and furnished with two current taps to use electrical equipments. The original De Giorgi pattern distinguish itself for its functional and finished line. Rounded corners and precision finishes make an harmonious design.

*price: € 250,00*

**Item: 725/00 - SERVUS TOP**

A three-shelf trolley with a refined and elegant design and compact dimensions made up from epoxy powder painted electro-zink plated steel and with tempered glass shelves, De Giorgi SERVUS TOP model, distinguishes itself for its details and materials utilized.

*price: € 520,00*
